☑ For organizations filing Form 990, 990-EZ, or 990-PF that received, during the year, $5,000 or more (in money or property) from any one contributor. Complete Parts I and II.

**Special Rules**

☐ For a section 501(c)(3) organization filing Form 990, or Form 990-EZ, that met the 33½% support test of the regulations under sections 509(a)(1)/170(b)(1)(A)(vi), and received from any one contributor, during the year, a contribution of the greater of (1) $5,000 or (2) 2% of the amount on Form 990, Part VIII, line 1h or 2% of the amount on Form 990-EZ, line 1. Complete Parts I and II.

☐ For a section 501(c)(7), (8), or (10) organization filing Form 990, or Form 990-EZ, that received from any one contributor, during the year, aggregate contributions or bequests of more than $1,000 for use exclusively for religious, charitable, scientific, literary, or educational purposes, or the prevention of cruelty to children or animals. Complete Parts I, II, and III.

☐ For a section 501(c)(7), (8), or (10) organization filing Form 990, or Form 990-EZ, that received from any one contributor, during the year, some contributions for use exclusively for religious, charitable, etc., purposes, but these contributions did not aggregate to more than $1,000. (If this box is checked, enter here the total contributions that were received during the year for an exclusively religious, charitable, etc., purpose. Do not complete any of the parts unless the General Rule applies to this organization because it received nonexclusively religious, charitable, etc., contributions of $5,000 or more during the year.)

$.................................

**Caution.** Organizations that are not covered by the General Rule and/or the Special Rules do not file Schedule B (Form 990, 990-EZ, or 990-PF), but they must answer "No" on Part IV, line 2 of their Form 990, or check the box in the heading of their Form 990-EZ, or on line 2 of their Form 990-PF, to certify that they do not meet the filing requirements of Schedule B (Form 990, 990-EZ, or 990-PF).

The Energy Foundation is in its 60-month termination period under IRS Sec. 507 (b)(1)(B). The IRS has issued a determination which indicates that The Energy Foundation will be treated as a public charity described in IRC Section 509(a)(1) during its 60-month termination period beginning January 1, 2006 (as attached). Accordingly, The Energy Foundation is not required to pay the excise tax on its investment income. Based upon the IRS' instructions for a 60-month termination, The Energy Foundation will continue to file the Form 990-PF until the termination period has passed.
In 2008, the Energy Foundation ("EF") did not participate or intervene in any political campaigns. It did, however, make a $2.375 million grant to its newly-created section 501(c)(4) affiliate, the Green Tech Action Fund ("GTAF"), for the purpose of attempting to influence legislation aimed at reducing global greenhouse gases and promoting clean energy technologies and energy efficiency. GTAF is re-granting the funds to other tax-exempt organizations for the specific purpose of lobbying for legislation to combat climate change. (See Statement 8 for more details.)

EF’s grant to GTAF for lobbying activities will not adversely impact EF’s exempt status under section 501(c)(3) of the Internal Revenue Code because it amounts to an insubstantial part of EF’s total activities. In addition, EF’s grant to GTAF is not a “taxable expenditure” subject to excise tax under section 4945. As indicated in question F in the Form 990-PF heading, EF is in a 60-month termination under section 507(b)(1)(B) and has received an advance ruling from the IRS that it can be expected to meet the requirements for a publicly supported charity described in sections 509(a)(1) and 170(b)(1)(A)(vi) during the 60-month period beginning on January 1, 2006 and ending on December 31, 2010. Under the relevant regulations, EF is treated as a public charity for purposes of section 4945 (as well as the other excise taxes under Chapter 42) for any taxable year within that 60-month period for which it can show it was “publicly supported” within the meaning of section 170(b)(1)(A)(vi) (determined on an aggregate basis from January 1, 2006 to the end of the tax year at issue).

For the period beginning January 1, 2006 and ending December 31, 2008, the Energy Foundation’s public support percentage (calculated according to the regulations under section 170(b)(1)(A)(vi)) is estimated to be about 31%. Thus, EF believes it has met the requirements to be treated as a publicly supported charity in 2008 because:

1. its public support percentage significantly exceeds the 10% minimum threshold required by the section 170(b)(1)(A)(vi) regulations;
2. it is organized in a manner designed to attract new and continued government and public support; and
3. it believes other relevant facts and circumstances (including a board of directors which represents the broad interests of the public) indicate that it is publicly supported.

Because EF qualifies as a publicly supported charity described in sections 509(a)(1) and 170(b)(1)(A)(vi) in 2008, its grant to a section 501(c)(4) affiliate for lobbying activities during

1 All section references are to the Internal Revenue Code of 1986, as amended, and all references to regulations are to the Treasury Regulations promulgated thereunder.
2 Treas. Reg. §§ 1.507-2T(e)(2)(ii); 1.507-2(f)(2)(ii). Moreover, if EF can demonstrate that it is "publicly supported" over the 60-month period on an aggregate basis, it will be treated as a publicly supported charity for the entire 5-year period, meaning that the tax imposed on private foundations under section 4945 will not apply to it. See Treas. Reg. §§ 1.507-2T(e)(1); 1.507-2(f)(1)(i).
Because EF qualifies as a publicly supported charity described in sections 509(a)(1) and 170(b)(1)(A)(vi) in 2008, its grant to a section 501(c)(4) affiliate for lobbying activities during that year will not be treated as a “taxable expenditure” subject to excise tax under section 4945.
In 2008, the Energy Foundation ("EF") established a new section 501(c)(4) affiliate, the Green Tech Action Fund ("GTAF"),\(^6\) to make grants to support advocacy for policies, legislation, and regulations designed to promote clean energy technologies and energy efficiency and thereby reduce air pollution and greenhouse gas emissions from electric and gas utilities, homes and businesses, and vehicles. Toward the end of 2008, EF made a grant of $2.4 million to GTAF to support such activities, and GTAF is re-granting the funds to other tax-exempt organizations for the specific purpose of lobbying for legislation to combat climate change. EF plans to continue making such grants to GTAF going forward, making sure that its expenditures on such grants, when combined with any expenditures on lobbying activities that EF might make on its own behalf, do not rise to a "substantial" amount of EF's total expenditures in any one year.

The grants from EF to GTAF have been and will continue to be governed by written grant agreements that:

(1) limit the use of grant funds to projects specified in written proposals submitted by GTAF (and reviewed by EF's board);
(2) require GTAF to repay to EF any portion of the grant funds not expended in accordance with such proposals;
(3) specify that the grants funds cannot be used for any political campaign activities, endorsement of political candidates, or similar political interventions;
(4) require GTAF to execute materially identical agreements with any of its sub-grantees that are not public charities; and
(5) require GTAF to submit to EF annual and final written reports on its use of the grant funds.

GTAF is entering into materially identical written grant agreement with its sub-grantees.

GTAF and EF have also entered into contractual arrangements to provide for the sharing of resources and personnel, under which GTAF has reimbursed EF a total of $10,000 in 2008 for employee time, legal fees, and phone use. (See Part XVII of the Form 990-PF for details).

Two of the four initial members of GTAF's Board of Directors serve as directors of EF, while a third member is an employee of EF.

Gross Amount Due to Grantee $9,677,750

Discounting of Multi-Year Payments to Comply With Generally Accepted Accounting Principals $-246

Grants Payable per Part II, Form 990-PF, Line 18 $9,677,504
In 2008, the Energy Foundation ("EF") did not itself carry out any activities that constitute attempts to influence legislation. Its only expenditure for such purposes was a $2.375 million grant on December 15, 2008 to its newly-created affiliate, the Green Tech Action Fund ("GTAF"), which is exempt from taxation under section 501(c)(4) of the Internal Revenue Code and has filed for tax exemption under section 23701f of the California Revenue and Taxation Code. The grant was for the purpose of attempting to influence legislation aimed at reducing global greenhouse gases and promoting clean energy technologies and energy efficiency. GTAF is re-granting the funds to other tax-exempt organizations for the specific purpose of lobbying for legislation to combat climate change. (See Statements 7 and 8 to EF’s 2008 Form 990-PF, attached to EF’s 2008 Form 199, for more details.)

EF’s grant to GTAF for lobbying activities will not adversely impact EF’s exempt status under section 501(c)(3) of the Internal Revenue Code or under section 23701d of the California Revenue and Taxation Code. Both provisions allow organizations to attempt to influence legislation so long as such efforts are “no substantial part” of their activities. EF’s grant to GTAF is not a substantial part of EF’s total activities for 2008.
The Energy Foundation – Corp 1515908
Form 3509 Question III Statement II

The Energy Foundation has not filed an election to have its legislative activities measured under section 23704.5 of the California Revenue and Taxation Code or under its federal counterpart, section 501(h) of the Internal Revenue Code. Instead, it has chosen to remain under the default standard of section 23701d of the California Revenue and Taxation Code and section 501(c)(3) of the Internal Revenue Code, which both allow attempts to influence legislation so long as they remain “no substantial part” of the organization’s overall activities.
2008 Proposal to the Energy Foundation
Green Tech Action Fund

**Green Tech Action Fund,** an independently incorporated 501c4 fund, seeks $3.2 million in funding from the Energy Foundation. **Green Tech Action Fund will act as a wholesale funder of 501c4 activities to advance clean technology markets, especially energy efficiency and renewable energy technologies.** The Green Tech Action Fund does not support candidates for election or engage in any electioneering activity.

**Summary**

The Green Teach Action Fund’s mission is to win the policies that accomplish the Energy Foundation’s goals. Since the founding of the Energy Foundation in 1991, we can point to many examples when excellent 501c3 (public charity) education and analysis set the stage for a legislative win, but the lack of legislative skills in the field meant the policy was lost. The Green Tech Action Fund (GTAF) helps fill this gap—it can directly fund legislative advocacy in local, state, and federal forums. Borrowing from the Energy Foundation model, the GTAF is a wholesale, not retail, 501c4 funder. Thus GTAF will not take front-line positions or buy newspaper ads in its name, opting instead to find the best 501c4 groups who can get the job done. GTAF is independent of, but affiliated with the Energy Foundation: 3 of 5 GTAF board members are Energy Foundation board or staff members.¹

**Strategy**

GTAF is legally allowed to support both direct and grassroots efforts to influence federal, state, or local legislation in the United States. It will not, at this time, do any lobbying of foreign governments. GTAF strategy will be aligned closely with Energy Foundation strategy, seeking to return the largest possible change for each dollar invested. Federal legislation is the highest priority and especially legislation to cap carbon emissions and create a price on carbon via a trading system and/or carbon tax.

¹ GTAF founding board members include Sue Tierney, Eric Heitz, Charlotte Pera, and Jason Grumet (Bi-Partisan Policy Center). One additional board member will be added in early 2009.
Other possible targets include new federal Renewable Portfolio Standard legislation promoting 25 percent renewable electricity by 2025, a new federal energy efficiency resource standard of 15 percent by 2020, improved national fuel economy and a new uniform national building code. GTAF will focus first on federal venues, but may also invest to win leading state policies, especially in large states where wins simultaneously build big new clean technology markets and set precedents for federal policy.

The table below shows the broad sectoral goals of the GATF, which entirely align with Energy Foundation board-approved goals. GATF could fund work in any of these areas, but will likely focus a few large targets as discussed above.

Funding and Staffing

Initially, GTAF expects for its principal funder to be the Energy Foundation. GTAF will also seek funding from other sources (both individuals and allowable institutions) that have yet to be identified. All appeals for funds will contain the following statement or its substantial equivalent: "Contributions to GTAF are not tax deductible." GTAF will establish internal controls to ensure that no funds donated by the Energy Foundation will be used for any activity prohibited by IRS rules. Caplin and Drysdale, a leading firm in the area of non-profit laws and regulations, provides legal counsel for GTAF, ensuring that all grant agreements, reporting, and protocols are followed.

GTAF will be staffed by a combination of “buying” Energy Foundation staff time and using consultants. In the former case, GATF reimburses the Energy Foundation for time that program and/or admin staff spend on GATF business. This relationship, described in detail in the memo from Caplin Drysdale provided in the November 2008 Energy Foundation Board docket, is commonly used by affiliated organization and the IRS guidelines for separating and tracking costs are well established.

Budget

GATF will have very low overhead, moving most of its funds out the to field. Our 2008 budget estimate is as follows:

Grant Agreement
Terms and Conditions

Date: December 15, 2008

We are pleased to award the following grant.

Grant number: G-0812-10620
Grantee: Green Tech Action Fund
c/o 301 Battery Street, 5th Floor
San Francisco, CA 94111

Project Contact: Charlotte Pera
Board Member

Phone:
Grant sector: Other
Grant amount: $3,200,000

Time period: One year, from December 1, 2008 to November 30, 2009

Grantee agrees and consents to the conditions of the proposal submitted to the Energy Foundation and to the following conditions of the grant:

Grantee shall use this grant solely for the purposes as expressed in your December 11, 2008 proposal and budget to the Energy Foundation. It is understood that these grant funds will be used for such purposes substantially in accordance with the budget submitted. Grantee shall repay to the Energy Foundation any portion of the amount granted which is not used for the purposes of this grant.

Grantee ensures that grant funds under this award will be used in compliance with all applicable anti-terrorist financing and asset control laws, regulations, rules, and executive orders. Grantee also agrees to take all reasonable precautions to ensure that any person or group expected to receive money from the grantee will neither make any payment nor provide any material support to any person on any United States government list of suspected terrorists.

(page 1)
Final reports, both narrative and financial, shall be due no later than two months after the termination of the grant period. The interim and final financial reports should show revenues and expenses for both this grant and the project. Clearly show the amount funded by the Energy Foundation and how these funds have been spent according to the categories of the submitted budget. Use three columns for the report:

- **Column 1** - Present the entire project budget (all sources of revenue and expenditures) as included in the original proposal;
- **Column 2** - Present the actual revenue and expenditures for the project in total;
- **Column 3** - Present the actual revenue and expenditures funded by the Energy Foundation grant only.

Reports are due as follows:

- **Financial - Final report due:** December 31, 2009
- **Narrative - Final report due:** December 31, 2009

Successive payments after the initial payment(s) described above are contingent upon Energy Foundation staff review of performance and receipt of the progress reports.

If grantee intends to apply for a renewal grant, the Energy Foundation must receive an interim narrative and financial report along with the new grant application no later than two months before the Energy Foundation board meeting. The board meets in early March, late June, and early November.

Grantee shall not use any portion of the funds granted to carry on propaganda or otherwise to attempt to influence specific legislation, either by direct or grassroots lobbying, to influence the outcome of any specific voter registration drive, to make grants to individuals on a non-objective basis, nor for any non-charitable or non-educational purpose. Please include a positive disclaimer to both narrative and financial reports that no Energy Foundation funds were used for lobbying purposes.

Because Grantee is not a 501(c)(3) public charity, Grantee must maintain records of receipts and expenditures and to make such records available to the Energy Foundation staff at reasonable times.
Grantee shall, during the period in which any portion of the grant funds remain unexpended, maintain the grant funds in a separate fund dedicated to one or more charitable and educational purposes.

Grantee shall not use any of the funds to make any grant to an individual or non-exempt organizations.

Grantee shall notify the Energy Foundation of any organizational changes during the term of the grant, including, but not limited to, changes in key personnel, changes in tax status, and changes in the project timing or goals prior to the change.

Grantee shall permit representatives of the Energy Foundation to visit the premises and review the activities of the Grantee with respect to the programs supported by this grant.

Grantee may announce receipt of this grant. Please furnish the Energy Foundation with any results of this announcement.

Please refer to grant number G-0812-10620 in all future correspondence and reports which relate to this grant.

The board and staff of the Energy Foundation are pleased to be able to make this grant to your organization. Please sign and return one copy of this grant agreement as evidence of your understanding and agreement with the terms and conditions defined in this letter.

Application for Extension of Time To File an Exempt Organization Return

File a separate application for each return.

1. If you are filing for an Automatic 3-Month Extension, complete only Part I and check this box.
2. If you are filing for an Additional (Not Automatic) 3-Month Extension, complete only Part II (on page 2 of this form). Do not complete Part II unless you have already been granted an automatic 3-month extension on a previously filed Form 8868.

Part I  Automatic 3-Month Extension of Time. Only submit original (no copies needed).

A corporation required to file Form 990-T and requesting an automatic 6-month extension—check this box and complete Part I only.

All other corporations (including 1120-C filers), partnerships, REMICs, and trusts must use Form 7004 to request an extension of time to file income tax returns.

Electronic Filing (e-file). Generally, you can electronically file Form 8868 if you want a 3-month automatic extension of time to file one of the returns noted below (6 months for a corporation required to file Form 990-T). However, you cannot file Form 8868 electronically if (1) you want the additional (not automatic) 3-month extension or (2) you file Forms 990-BL, 6069, or 8870, group returns, or a composite or consolidated Form 990-T. Instead, you must submit the fully completed and signed page 2 (Part II) of Form 8868. For more details on the electronic filing of this form, visit www.irs.gov/efile and click on e-file for Charities & Nonprofits.
